

**Gerontology Course Offerings**  
**Fall 2016**  
**Graduate**

**Required Courses**

**GRNT 6201-090** (CRN#17347) **Research and Methods on Aging I**  
**Dr. Michael Turner** **Wednesday 5:00—7:45 pm**  
Examination of variety of qualitative and quantitative methods used in research on aging and analysis of Gerontology research from a range of disciplines. Students will develop a working draft of their thesis-applied project proposal.  
Pre-requisite(s): Statistics.

**GRNT 6600—094** (CRN#12307) **Current Issues in Gerontology**  
**Dr. Anita Blowers** **Tuesday 5:00-7:50 pm**  
Study of current issues and topics in the field of aging from an interdisciplinary perspective; an ethical framework will be used to examine the issues.

**Electives**

**GRNT 5050—001** (CRN#13805) **SW Practice w/Older Adults & Families**  
**Dr. Othelia Lee** **Wednesday 11:00—1:45 pm**  
**Cross listed with SOWK 7090-004**  
Expands social work students' knowledge, values, and skills with regard to advanced micro practice with families, especially members of vulnerable populations.

**GRNT 5050-090** (CRN#17350) **Health Policy Development**  
**Dr. Winsor Schmidt** **Monday 5:00—7:45 pm**  
**Cross listed with HADM 6142**  
Examination of the formulation, adoption and implementation of public policy for health services delivery and healthcare through federal, state, and local political processes.

**GRNT 5050-091** (CRN#18147) **Family Care Giving Across the Lifespan**  
**Dr. Julian Montoro-Rodriguez** **Thursday 5:00—7:50 pm**  
This class focuses on family care as a lifelong developmental construct, and discusses current theoretical frameworks, areas of practice, education, research, and policy and advocacy. .

**KNES 5232—001** (CRN# 11444) **Physiology of Human Aging**  
**Dr. Michael Turner** **Monday 3:30—6:15**  
This course focuses on the normal physiological alterations that occur as the human progresses from a young adult to the latter stages of life. Special attention is given to interventions commonly promoted to combat the physiological changes that result from aging.

**GRNT 5280-090** (CRN#17134) **The Experience of Dementia**  
**Louise Murray** **Online**

**Cross listed with GRNT 4280-090**

Provides an overview of Alzheimer's disease and related disorders using a person-centered perspective. Explored from the perspectives of the person diagnosed, family members and concerned friends, and both informal and formal caregivers. Students gain a holistic insight into these disorders and their implications for both individuals and society.

**GRNT 6211 – UOL** (CRN# 17136) **Administration of Aging Programs**  
**Louise Murray** **Online**

Focus will be the implementation of public policies and programs for the aged and the development and administration of these programs. Students will become familiar with the process through which policies are transformed into aging programs and the budgetary, management and evaluative considerations that must be considered.
