

BE PART OF OUR MECK 60+ RESEARCH PROJECT

Are you over age 60? Do you provide services to people over age 60?

Complete our questionnaire and earn a \$20 gift card.

You hear a lot about young people flocking to Charlotte and Mecklenburg County for job opportunities. But our booming metropolitan area is also a magnet for retiring Baby Boomers and other older adults.

We want you to be well-represented as local governments, community organizations, private companies and others make plans and develop budgets now and in the future. Why? Because when policy makers and service professionals understand what older adults need, they can make informed decisions about how to provide support.

We encourage you to join the study and add your voice to this crucial “needs assessment” process.

Yes, I'll give you my “two cents” for a \$20 gift card

For more information and to get your survey questionnaire:

Call 704-687-5369

and ask for Madison Preib, MPH
project coordinator
