**Psychology of Adult Development and Aging
Monday 5:30– 8:15pm**

Cross listed with PSYC 6124-001

Psychological development through adulthood and old age. Emphasis on processes underlying continuity and change in adulthood, including personality and socialization, cognitive development, and the psychophysiology of aging.

Electives

**HADM 6150-090/GRNT 5050-090 (CRN#26853)
Dr. Winsor Schmidt**

**Health Care Law and Ethics
Wednesday 5:30-8:15**

Cross listed with HADM 6150 and Phil 3230

Analysis of ethical and bioethical problems confronting healthcare delivery systems. Selected legal principles and their application to the healthcare field, including corporate liability, malpractice, informed consent, and governmental regulation of health personnel and health facilities.

**GRNT 5250 – 001 (CRN#23495)
Dr, Katie Kutcher**

**Aging Programs and Services
Tuesday 6:00—8:45**

Cross listed with GRNT 4250

Examination of federal, state and local framework of services and programs for the aging. This course provides an overview of programs and services for older adults from a legislative, consumer, and provider perspective. We will examine these programs from a national and local viewpoint. Students who successfully complete this course will gain a holistic insight into these programs, their place in the continuum of services for older adults, and the implications of such programs for older adults, caregivers, and society.

**GRNT 5280 – 090 (CRN#25378)
Dr. Louise Murray**

**The Experience of Dementia
Online**

Cross listed with GRNT 4280 and MALS 6000

Provides an overview of Alzheimer's disease and related disorders using a person-centered perspective. This topic is explored from the perspectives of the person diagnosed, family members and concerned friends, and both formal and informal caregivers. Students who successfully complete this course will gain a holistic insight into these Disorders and their implications of both individuals and society.

**HADM 6120—090 (CRN#21175)
Dr. Sarah Laditka**

**Health Economics
Wednesday 5:30—8:15**

Examination of the economic context of health services delivery and policies, and application of economic concepts to the healthcare sector including supply and demand, elasticity, regulation, competition, and cost effectiveness analysis.
