WHAT CAN A MINOR OR GRADUATE CERTIFICATE IN GERONTOLOGY ADD TO YOUR MARKETING DEGREE?

*UNC Charlotte offers an Undergraduate Minor and Graduate Certificate in Gerontology (with an Early Entry option)*

WHAT IS GERONTOLOGY?

Gerontology is the study of longevity. Students of gerontology study not only physiological changes that occur with aging, but also social roles, normative expectations, attitudes and beliefs, stereotypes, and policy, health and economic issues which define the aging experience.

HOW DOES GERONTOLOGY COMPLEMENT MY MARKETING DEGREE?

Gerontology helps marketing professionals to understand the different trends among the baby boomers and senior population. Members of the senior population are expected to be the dominate population by the year 2030. Marketers will have to shift their target market to this population. In order to effectively communicate to this generation, marketers will have to be familiar with the study of aging and older adults. There is a growing need to understand how to market to the older population and evaluate them as consumers. This will increase sales for marketers, as well as retention. The senior population is the most brand loyal population.
